

STELLAR® Hooklift Hoist - Fire Department Service

The fire departments of today are no different than any other entity experiencing shrinking budgets and having to do more with less. The additional functions that a fire department can gain by including a Stellar® Hooklift in their fleet is numerous. Examples of current Stellar® Hooklift uses in the fire and rescue market include Hazardous Materials Response, Emergency Response, brush fire fighting, equipment maintenance module, water tanker, decontamination body, generator package, lighting body, water pipe body, wood form body, water rescue, flatbed for hauling ATVs, van body for equipment storage and stake rack modules just to name a few! The pictures shown here are just some of these modules that are currently being used.

■ **The Stellar Hooklift for Fire Department Service**

With a Stellar Hooklift, one truck can support numerous bodies, to fit numerous situations:

- | | |
|------------------------------|--------------------------------|
| Hazardous Materials Response | Water pipe body |
| Emergency Response | Wood form body |
| Brush fire fighting | Flatbed for hauling ATVs |
| Water tankers | Van body for equipment storage |
| Decontamination body | Stake rack modules |
| Generator package | MORE! |
| Lighting body | |

- One truck can support numerous bodies, to fit numerous situations
- One truck operator can, without leaving the cab of the truck, load and unload or change truck beds in less than a one minute cycle
- Patented dump/load interlock system
- Rugged rear body tie-downs and large over-sized rear hinge pins to insure stability
- Lowered maintenance
